for Institutions and Professionals

**ENHANCE YOUR FIDUCIARY DUTIES WITH
A PROACTIVE APPROACH TO QUANTIFY BEST INTEREST
AND QUALITY OF LIFE FOR YOUR CLIENTS**

As a result of unraveling complex medical and care-related concerns for many fiduciary organizations and their clients since 2011, the programs within **SOLUTIONS FOR DIGNITY®** were developed to minimize risks and reduce complex crisis situations while supporting dignity, quality of life, and the best interest of older adults, individuals with disabilities, and children with special needs.

Care-related concerns evolve through five phase:

- Independence
- Interdependence
- Dependence
- Crisis Management
- End of Life

Our client base primarily consists of those seeking crisis management services, presenting ample opportunities for proactive risk reduction and crisis prevention. We frequently receive referrals from Financial and Legal Institutions whose clients and beneficiaries are facing complex crises. The **SOLUTIONS FOR DIGNITY® Programs** were created to assist fiduciaries in understanding their clients' unique needs, thereby helping them steer clear of costly pitfalls and complications that can exacerbate crisis situations and compromise their best interest and quality of life. The following programs have been developed to provide continuous support, offering suitable solutions during the interdependence and dependence phases, with the ultimate goal of minimizing risks and preventing crises.

BOOTS ON THE GROUND

The **SOLUTIONS FOR DIGNITY® Boots on the Ground Program** provides you and your clients with a cost-effective yearly assessment by our highly skilled RN Advocates and Personal Needs Coordinators. In addition to gathering important medical and care-related information, we offer short and long-term goals to improve quality of life and avoid crisis. We also provide routine in-person visits to address and understand medical and care-related areas of life that might otherwise go unnoticed until there is a crisis. Our assessment aids in understanding the needs of individuals, benefiting both you, your clients or beneficiaries, and their families. It also facilitates the utilization of available resources

to ensure their best interest and enhance their quality of life. In-person visits offer documentation of the medical and care related areas of life and ongoing support to minimize risks to your client's well-being.

PLANNING FOR DIGNITY

The **SOLUTIONS FOR DIGNITY® Planning for Dignity Program** provides recommendations for special needs planning, on aging at home, aging related concerns, levels of care, medical insight and guidance. It helps you to support your clients with how to gain access to the types of care suitable for their individual financial circumstances. We help seniors, adults with disabilities, and special need needs families, and financial professionals to develop a comprehensive long-term plan for care, creating a legacy of care and dignity that allows you to not only address your client's financial legacy but their family legacy around care and dignity.

HOME MAINTENANCE

The **SOLUTIONS FOR DIGNITY® Home Maintenance Program** supports the maintenance of one of your client's largest assets and includes routine maintenance and coordination with contractors to keep the home maintained well, as it becomes more difficult to manage it independently.

To learn how the **SOLUTIONS FOR DIGNITY® Programs** can help you improve your fiduciary duties and provide a better quality of life for your clients, call our office today at **(855) 456-7972** or visit our websites: **www.solutionsfordignity.com** **www.ikorofwpa.com**

What Fiduciary Professionals have to say about IKOR of Western Pennsylvania

IKOR Partnership:

IKOR is a true partner in every sense of the word. Together, we evaluated the client situation on all fronts and jointly arrived at conclusions that provided the framework for the best action plans for our client.

...

IKOR Expertise:

Throughout my career, I have encountered situations in which I know my limitations. Had I tried to manage this myself it would have been another full-time job and without the expertise IKOR possesses, the results would not have been so positive.
